EQ POWER

Plug-in: the best of both worlds.

EQ Power models with plug-in hybrid drives combine the dynamics and efficiency of an electric motor with the range of a combustion engine. EQ Power enables you to drive in the city quietly and locally emission-free. During longer trips, you can use the combustion engine. Benefit now from special rebates on selected EQ Power plug-in hybrid models from Mercedes-Benz.

The update on 1.7.2020 may result in certain changes to our products. Any modifications in terms of design or form or changes to the scope of goods supplied by the manufacturer remain reserved during the delivery period, provided that these changes or variations are deemed reasonable for the buyer, taking into account the interests of the seller. Where the seller or manufacturer uses initials or numbers to identify an order or the item ordered, this alone will not constitute a valid basis for the derivation of any rights. Images may also feature accessories and custom equipment which are not included in the standard scope of goods supplied. For the definitive latest version, please contact your Mercedes-Benz distribution partner. Different conditions apply to special models with rebates and Mercedes-AMG models. This offer will remain valid until such time as amended terms and conditions are published, and in any event no later than 30.9.2020.
